Health Coverage for All Children: Connecticut

February 2011

All Children Need Health Coverage that is Affordable, Comprehensive, and Simple.

Health Coverage for Connecticut's Children:

- 57,000 children are uninsured (6.6% of all children). *
- 267,551 children are enrolled in Medicaid. **
- 21,033 children are enrolled in the Children's Health Insurance Program (CHIP). ***

How affordable is health coverage for Connecticut's children? †

- CHIP eligibility is up to 300 percent of poverty ($67,050 for a family of four)
- Medicaid eligibility is 185 percent of poverty ($41,348)

How simple are enrollment procedures in CHIP and Medicaid for Connecticut's children?

- Simplification procedures:
  - Administrative verification of income
  - No face-to-face interview
  - No asset test
  - Joint application
  - Presumptive eligibility for Medicaid—so children do not have to wait for their application to be processed before seeing a doctor

- Barriers that remain:
  - No presumptive eligibility for children in CHIP—which forces children to wait until their application is processed before they can see a doctor.
  - No 12-month continuous eligibility
  - 2 month waiting period
