December 9, 2009

The Honorable Robert P. Casey, Jr.
U.S. Senate
Washington, DC 20510

Dear Senator Casey:

As organizations committed to ensuring that all of our nation's children get the health coverage they need and deserve, we are writing to thank you for your commitment to making children an important priority by filing Amendment #2790 to the Patient Protection and Affordable Care Act (H.R. 3590). Your amendment builds on the provisions of the underlying bill, continuing to protect and improve the country's successful Children's Health Insurance Program (CHIP) and ensuring that no child ends up worse off as a result of health reform. We applaud your leadership.

America's children have a lot at stake in health reform. More than eight million children remain uninsured, and more are losing employer-sponsored coverage daily. Families are just one playground accident away from medical bankruptcy. Each day a child is uninsured is a lost opportunity to strengthen our next generation, America's future. Your amendment goes a long way toward protecting and improving coverage for millions of children in low-income working families across the nation by:

- Providing full funding for CHIP through 2019;
- Maintaining current CHIP eligibility through 2013, and setting a floor for income eligibility for children in all states at 250 percent of poverty ($55,125 for a family of four) beginning in 2014;
- Streamlining enrollment procedures making it easier for children to get coverage and keep it;
- Ensuring that coverage for children remains affordable;
- Guaranteeing all children in CHIP the comprehensive care they need from head to toe; and
- Requiring an HHS report in 2016 that will compare coverage for children in CHIP with coverage for children in the new Health Insurance Exchange and if coverage (including benefits, cost-sharing, premiums, and other features) is comparable or better, children can be transitioned from CHIP into the Exchange in 2019.

Our nation has made great strides over the last decade in securing health coverage for low-income children of working families. We must now seize this historic opportunity to build on the success of prior efforts and the bipartisan CHIP program, and ensure that children will be better off, not worse off, as a result of health reform. Your amendment will do just that.

We offer our strong support for your CHIP Amendment (#2790). We stand ready to work with you and your Senate colleagues to achieve our common goal of reforming our nation's health care system and ensuring that <u>all</u> children, indeed everyone in America, have access to the health coverage they need and deserve.

Sincerely,
